

**AFRICAN COMMUNITY CENTER ATLANTA  
INFORMATION INPUT**

Welcome to the page for The Information Input Team of the African Community Center Atlanta (ACC-ATL). We are the unit responsible for managing the inflow of information from our think tanks who gather information from entities in the vital interest areas of our community.

It is our responsibility to facilitate a process that keeps the community aware of current events, information, ideas, concepts, principles and practices that causes us to grow, to lift up, to rise.

We are working to combat the effects of the trillions of dollars spent each year in mainstream media that influences us against our best interest.

As a people, we possess so much valuable knowledge and information on our shelves, in our heads, our hearts, and in our DNA. The more we listen to our collective selves, the better able we will be to move in our collective best interest

We communicate with Think Tank Chairs and support and encourage the massive collection of information in the vital areas of Family, Health and Wellness, Education, Security, Art and Culture, Economics, Business and Trade, Law and Legal, or Politics for mass distribution to Our community.

We build a listing of all the entities in the community who provide powerful and consistent information to the community for our upliftment.
